I am a Junior Full Stack Developer, I specialize in Flutter, Node.js, Laravel, MERN Stack, RESTfull API and Payment Integration, showcasing proficiency across a diverse technological landscape. My commitment lies in utilizing these skills to contribute to impactful projects and a proactive problem-solving approach to the project. I have a big experience in flutter mobile app development and laravel API.

Experience

Website Development

October 2024

- developing a Website for the House Rent system. This project involved designing and implementing features to efficiently control and monitor House rent resources across Adis abeba city . it is a final graduation project.The project is full stack project implement using MERN stack Working collaboratively with a dynamic team using git hub and restfull API test using post man .

System Development

May to August 2023

- developing a system for the PC Management System. This project involved designing and implementing features to efficiently control and monitor computer resources across ASTU's departments.The Project is full stack project it implement using Laravel framework

website development

september to december 2022

- develop a website for kombolcha police station management for manage their recources in their station Using php programming language

azure developer

2024 - present

- i am an azure developer, specializing in building, deploying, and managing cloud solutions using microsoft azure services.

Education

Wollo University

2019-2024

- Bachelor of Software engineering
- GPA: 3.67
- Exit exam result:76

Wollo University appfactory and Demera Digital

February-September 2024

- microsoft azure trainer

Skills

- Application Design
- mobile app development
- Security System
- web development

- Problem-solving
- Creativity and team collaboration
- Decision making
- Communication Skill

To Whom It May Concern

Dear Hiring Manager,

I am excited to apply for the FullStack Web Developer position at your organization. With a Bachelor's degree in Software Engineering from Wollo University and hands-on experience in frameworks like Laravel, React, and Flutter, as well as cloud platforms such as Microsoft Azure and advanced experience in git version control to collaborate with a team, I am confident in my ability to make valuable contributions to your team. My experience includes developing scalable and user-focused systems, such as an PC Management System and House Rent system, which have strengthened my skills in Full Stack development and creating robust, high-performing applications.

I am eager to embrace the key responsibilities of this role, from developing and maintaining ERP software modules to writing clean, efficient code under senior guidance, participating in code reviews, and actively troubleshooting issues. My approach is to continuously improve by suggesting new technologies and methodologies, working closely with team members to fully understand project requirements, and bringing forward innovative solutions that advance the company's goals.

I am enthusiastic about the opportunity to bring my skills and passion for software development to your organization and would welcome the chance to discuss my application further. Thank you for your time and consideration.

To Whom It May Concern

Subject: CERTIFYING ENGLISH LANGUAGE PROFICIENCY

This is to certify that **Mr. Fuad Abdurahman Kalid** has taken English Courses for at least Eight years as part of his elementary school curriculum. In his high school education, English was the medium of instruction for all the courses that he had taken.

Similarly, he obtained his **B.Sc. Degree** from Wollo University in **Software engineering** where English is the medium of instruction.

We are, therefore, confident that he shall not face any English language related problems in the course of his studies/duties and we wish him all the best in his future education/career.

"With best regards"

TO WHOM IT MAY CONCERN

Subject: Letter of Recommendation

As an employee at the Wollo University Institute of Technology, Department of Computer Science, I have the great pleasure of writing this reference letter for **Fuad Abdurahman**. I have known him very well for the past eight months as AppFactory Trainee on Microsoft Azure Training. He has been a tremendous student. I have had the opportunity to assist him various computer-related courses, and I found him to be an exceptional student with remarkable grasping power, analytical capabilities, and significant contributions in his field of study.

Fuad demonstrates remarkable energy and professional competence. His broad expertise extends various subjects and he shows great enthusiasm in addressing real-life challenges, particularly those affecting his community. With extensive knowledge in engineering and informatics analytics, coupled with hands-on experience, he consistently introduces new ideas and innovations to benefit his community.

Fuad has demonstrated exceptional proficiency in various computer subjects. Beyond his academic achievements, **Fuad**'s outstanding personality traits and professionalism make him a valuable asset to any field of study. I am confident that he will make significant contributions to his chosen field through further study and research activities. His dedication and capabilities lead me to believe him for strongly endorse for continued academic pursuits and research endeavors, which implies not only benefit him but also positively impacts our country's development.

I vehemently recommend him for any prestigious research/ fellowship and wish him all the best luck for future endeavors. If you have further queries or any clarification, I would be happy to provide such information in the future as well.

Best regards,

Amare Kebede

To Whom It May Concern

Dear Sir/Madam,

Subject: LETTER OF RECOMMENDATION

I am writing this letter to strongly recommend **Mr. Fuad Abdurahman**, who has successfully completed his Bachelor of Software Engineering from the University College of Engineering and Technology, Wollo University, Ethiopia. I had the pleasure of overseeing **Fuad's** academic progress as the Head of the Software Engineering Department, and I can confidently vouch for his exceptional performance throughout his studies.

In addition to his academic success, **Fuad** has shown remarkable abilities in software development, problem-solving, and system design. His project work consistently displayed innovation and technical skill. **Fuad** also excels in teamwork and leadership, making him a well-rounded individual capable of thriving in any professional or academic environment.

I wholeheartedly recommend **Fuad** for any further studies or professional opportunities, confident in his ability to excel and make meaningful contributions.

Sincerely,

Leul Ayneklu

Head of Software Engineering Department

Certificate of Course Completion

CCNAv7: Introduction to Networks

The student has successfully achieved student level credential for completing CCNAv7: Introduction to Networks course administered by the undersigned instructor. The student was able to proficiently:

- Configure switches and end devices to provide access to local and remote network resources.
- Explain how physical and data link layer protocols support the operation of Ethernet in a switched network.
- Configure routers to enable end-to-end connectivity between remote devices.
- Create IPv4 and IPv6 addressing schemes and verify network connectivity between devices
- Explain how the upper layers of the OSI model support network applications.
- Configure a small network with security best practices.
- Troubleshoot connectivity in a small network.
